

# DES PAR ADA

The Death and Resurrection series is reserved for those rare wines that must be buried for long periods of time before they reach their full promise. The wines in this series are the most extraordinary and longest living wines my cellar. This inaugural release is focused exclusively on Italian varietals, each of which represents a dear dream. Each barrel has more covetous sleepless nights invested in it than I can count. Note well, rarest does not mean obvious or overt. These are deft, powerfully subtle wines, and the patient will be highly rewarded.

Oak for 34 months

Harvested:  
October 2012

Production Notes:  
Racked after 18  
months in barrel

74 cases made  
15.6% alc by vol

## Tasting Notes:

It's a well known fact that a cosmopolitan woman wouldn't last 15 minutes out here. That is except for her. We still don't know exactly where she came from but it sure wasn't Dead River; with her Chanel perfume, English strawberries, pepper trees, imported apples, heirloom Italian leather riding gloves and penchant for watermelon sorbet. Even so, she's one of us, I've never seen someone handle a gun so precisely and then return to reading poetry.
